# Iron Lady Leadership Essentials Program

## Your leadership journey with Iron Lady

Express and develop your strengths to the fullest. Learn leadership practices from the masters. Practice the habits to be a true leader.

## A leader is born. Now!

Most of us wait to get the right **title** before we can start leading. That's because we haven't understood the meaning, implications, or the authentic power of true leadership.

In this context, we behave like the tiger which was raised amongst sheep. It never realized who it truly was till it was told by another tiger to look properly in the mirror!

Some of the most common myths that many of us believe about leadership are:

1. Leaders are born and not made
2. Leaders have all the answers and are infallible
3. I need to be charismatic to be a leader
4. Leadership comes with age or experience or a position

However, 'just being myself' alone does not make you a leader.

Leadership is about acquiring a certain clarity and a sense of purpose. It's then about acquiring enough capabilities to convert that purpose into a reality. Iron Lady program enables you to move in this direction.

# The journey

Iron Lady program is intended to train you to push your limits. It supports you in developing the set of beliefs, methods and habits that can make you a true leader.

There are three elements of the program: Iron Lady Leadership Essentials Program

### Transformational Personal Leadership

*What does it take to lead with a sense of purpose, values?*
*How can I communicate with power?*
*How do I dream big yet manage a sense of balance and joy in life?*

Transformational Personal Leadership is about developing the internal confidence and leading with balance.

As a part of this, you will go through intense experiences that allow you to truly experience yourself in full glory.

This is about truly understanding who you are, creating a purpose that can be bigger than yourself, about redefining your values consciously and developing a sense of awareness about your habits, beliefs and redefining these to perform at your best.

### Bing Fa – Breakthrough competence

*What are the best practices that enable me to lead with power?*
*How do I take decisions in challenging times for the team?*

You get to learn the way in which you can set targets, manage and influence groups of people positively, and start turning your vision into reality.

You also learn the habits and methods that enable you to accomplish results multifold.

### Strength based excellence

*How can I learn things fast and make whatever I learn into powerful and joyful habits?*

Learning programs are useless if they don't enable you to learn new habits, new skills that you can use in your real life. Through some of these sessions, you learn the methods in which not only can you learn fast, but you can make some habits for life.

## How does the program work?

### Intense, face-to-face sessions (online)

*Fasten your seat belts and get ready for the roller coaster ride!*

Through these experiential sessions, you will sing, dance, laugh, cry and celebrate your way towards new skills. It will not only be intense, it will be fun.
You probably never thought you had it in you!

**Daily/Weekly Rituals and assignment**

*For a few minutes every day, life can be very different.*

A few simple step taken every day, small exercises that can support you in learning a habit. A beautiful insight that can brighten up your day.

It's never too late to learn a new habit!

**Support from Army and Community**

*There is nothing powerful than a powerful community where people can support each other with an intention to grow together!*

You get to meet experts in different areas as part of the Iron Lady community and you will also be invited for sessions once in a week where you can get to learn more and more and keep growing.

Make use of the community when you have a strong one around.
