Shameless Pitch – Preparation

You get what you **NEGOTIATE!!**

Shameless pitch is an attitude. Standing out through your differentiation, addressing the need of the other person and making an irresistible offer towards getting what you are looking for, is the essence of shameless pitch.

Most important things to consider are:

1. Be shameless in what you are pitching for
2. Get noticed by dressing up yourself in a different way that is relevant to your pitch
3. Address the right segment/stakeholder while making a pitch
4. If you are not a market leader/ star performer, attack using your differentiated strength and need of the receiver
5. Use the structure of Need→ Differentiation→ Offer in your pitch
6. Make it clear and crisp (90-120 sec)
7. Pitch with a lot of energy and conviction
